Partnering with other ATE centers and projects

To **Grow** the MNT technician workforce by **fostering** academic and industry **mentorship** between existing MNT partners and educators **developing** prospective community college MNT programs.

By

- Developing a coordinated national approach to advance MNT education.
- Delivering professional development to enhance knowledge, skills and abilities.
- Conducting strategic outreach, recruitment, and retention of traditional and underrepresented faculty/students.
- Create a deep Industry/Education Alliance that supports student success.
